## MEDGAR EVERS COLLEGE FILM & CULTURE SERIES

Presents:

Reconstructing Memories: Pre - National Black Writer's Conference Event  
An Evening With Legendary Filmmaker Haile Gerima

Featuring:

A Celebration of Gerima's Work and a Sneak Peek - Preview Screening of  
**'TEZA'**

*Teza* - Examines the displacement of African intellectuals, both at home and abroad, through the story of a young, idealistic Ethiopian doctor – Anberber. The film chronicles Anberber's internal struggle to stay true, both to himself and to his homeland, but above all, *Teza* explores the possession of memory – a right humanity mandates that each of us have – the right to own our pasts.
